

Representative failure cases across major function families

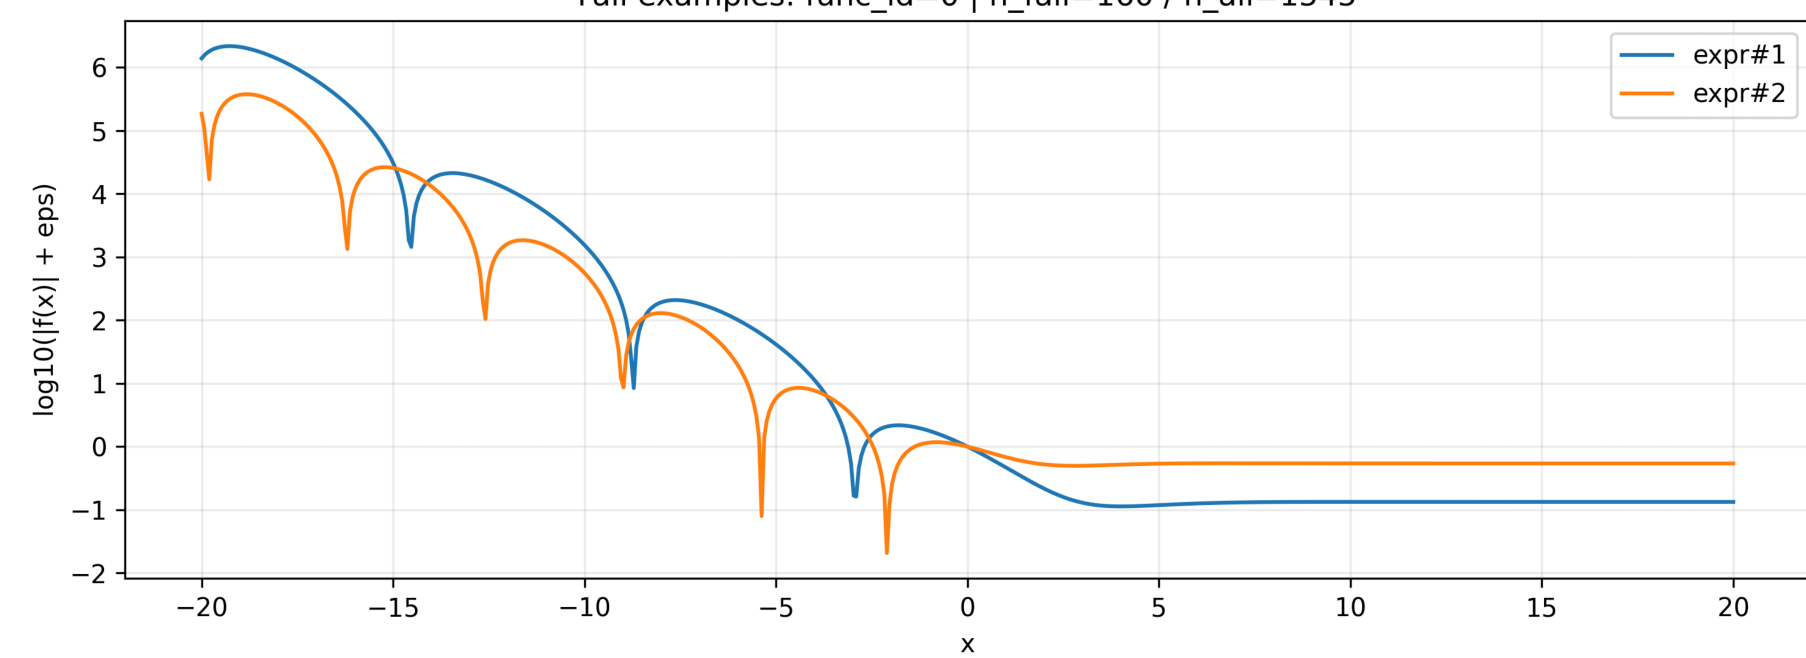

Arrhenius-like
radius-limited / nearby singularity

Fail examples: func_id=10 | n_fail=177 / n_all=478

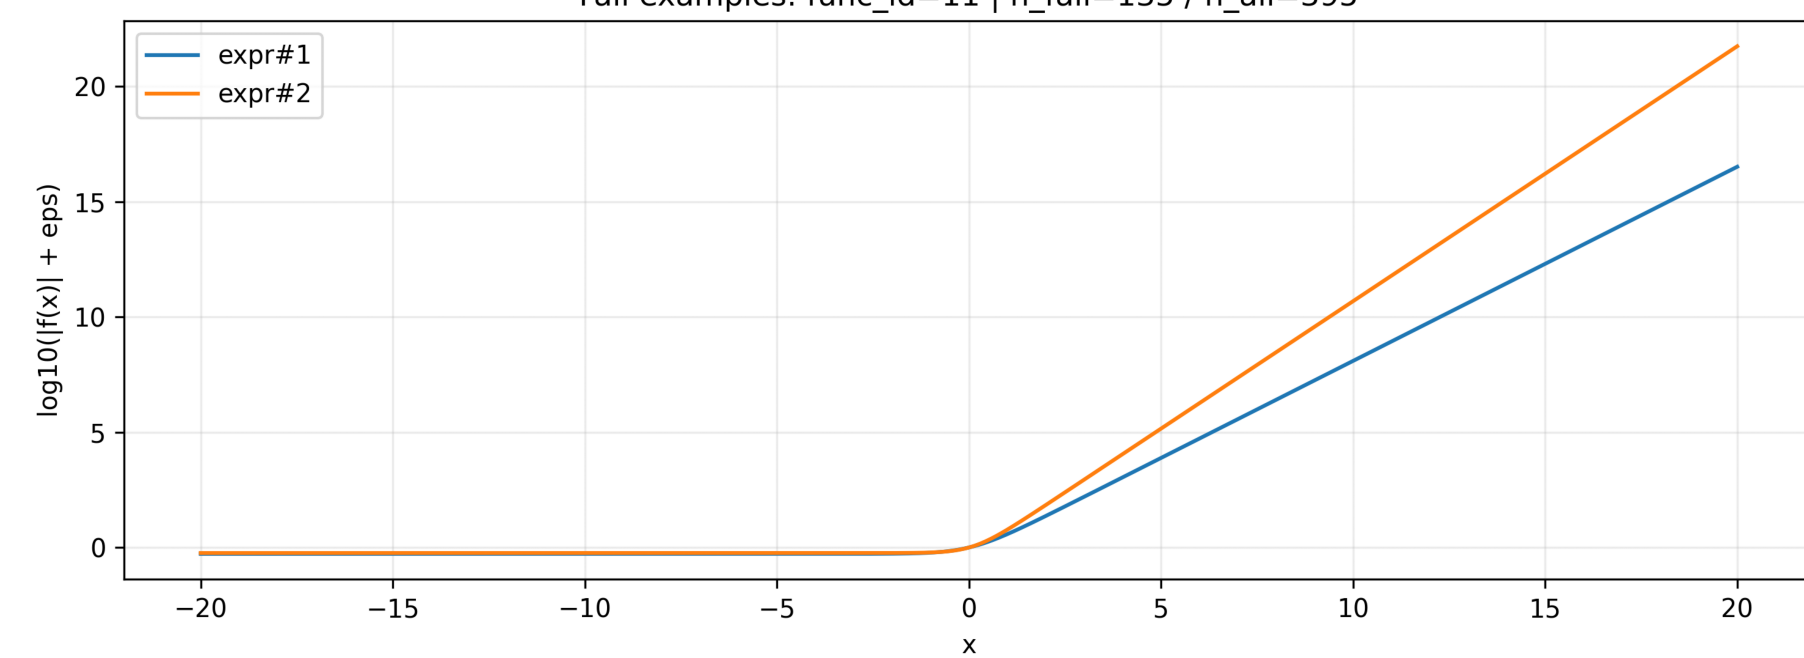

Damped oscillator 1
oscillation + damping / phase drift

Fail examples: func_id=0 | n_fail=160 / n_all=1545

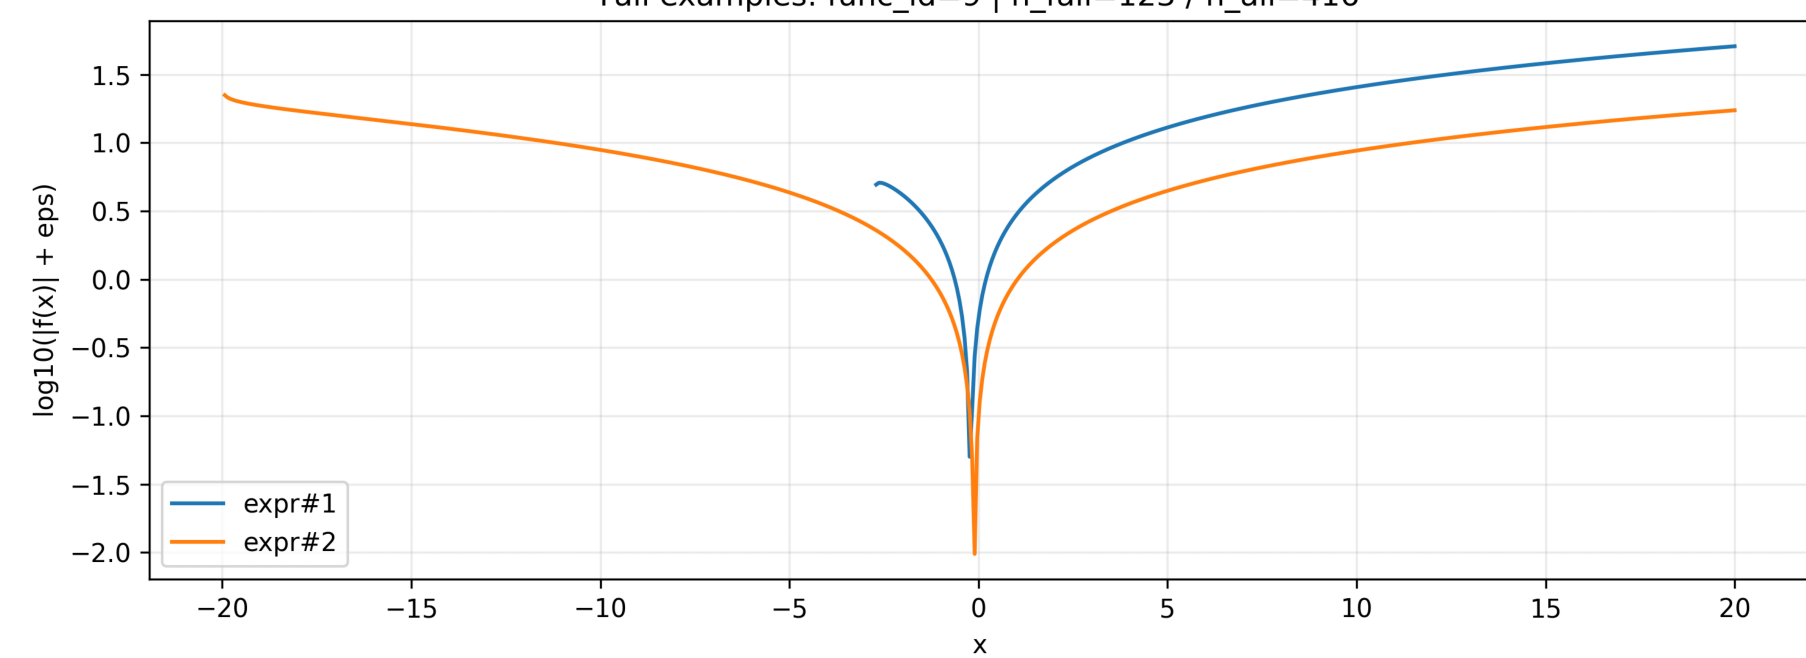

Diode I-V
steep exponential growth / coefficient explosion

Fail examples: func_id=11 | n_fail=135 / n_all=395

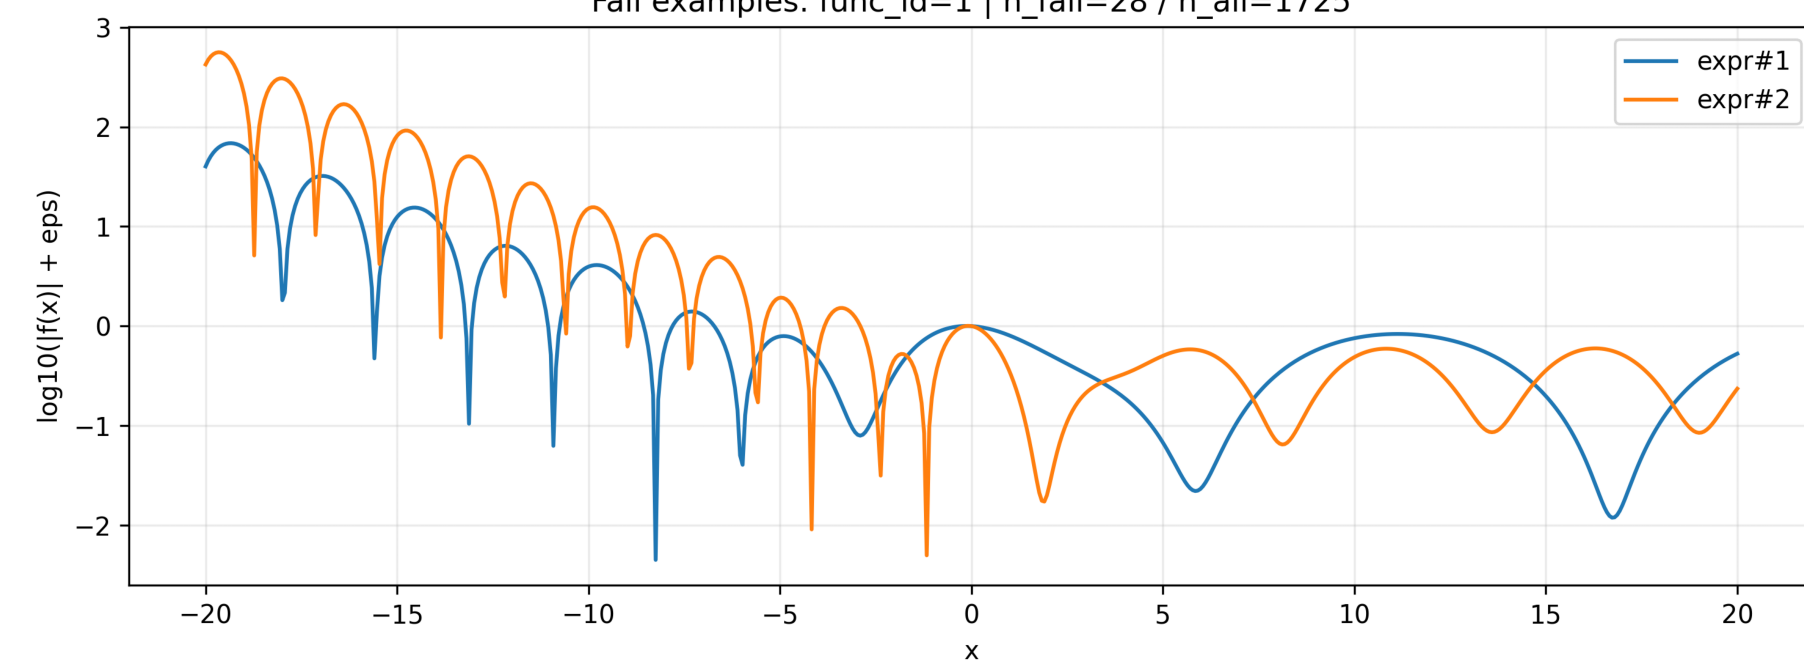

Activation + logarithmic term
nonuniform local sensitivity / logarithmic boundary effect

Fail examples: func_id=9 | n_fail=123 / n_all=416

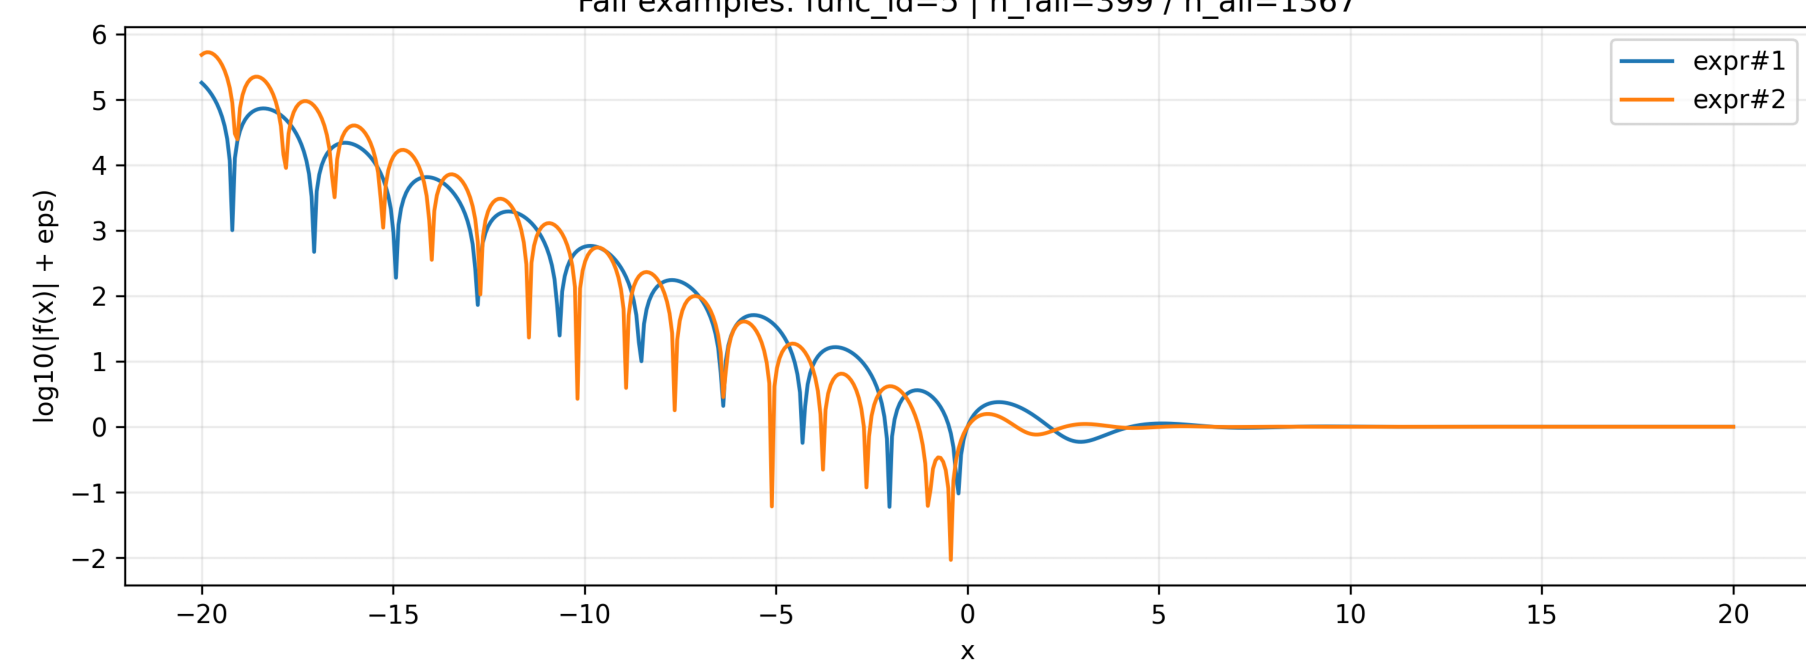

Damped oscillator 2
mixed oscillatory interference

Fail examples: func_id=1 | n_fail=28 / n_all=1725

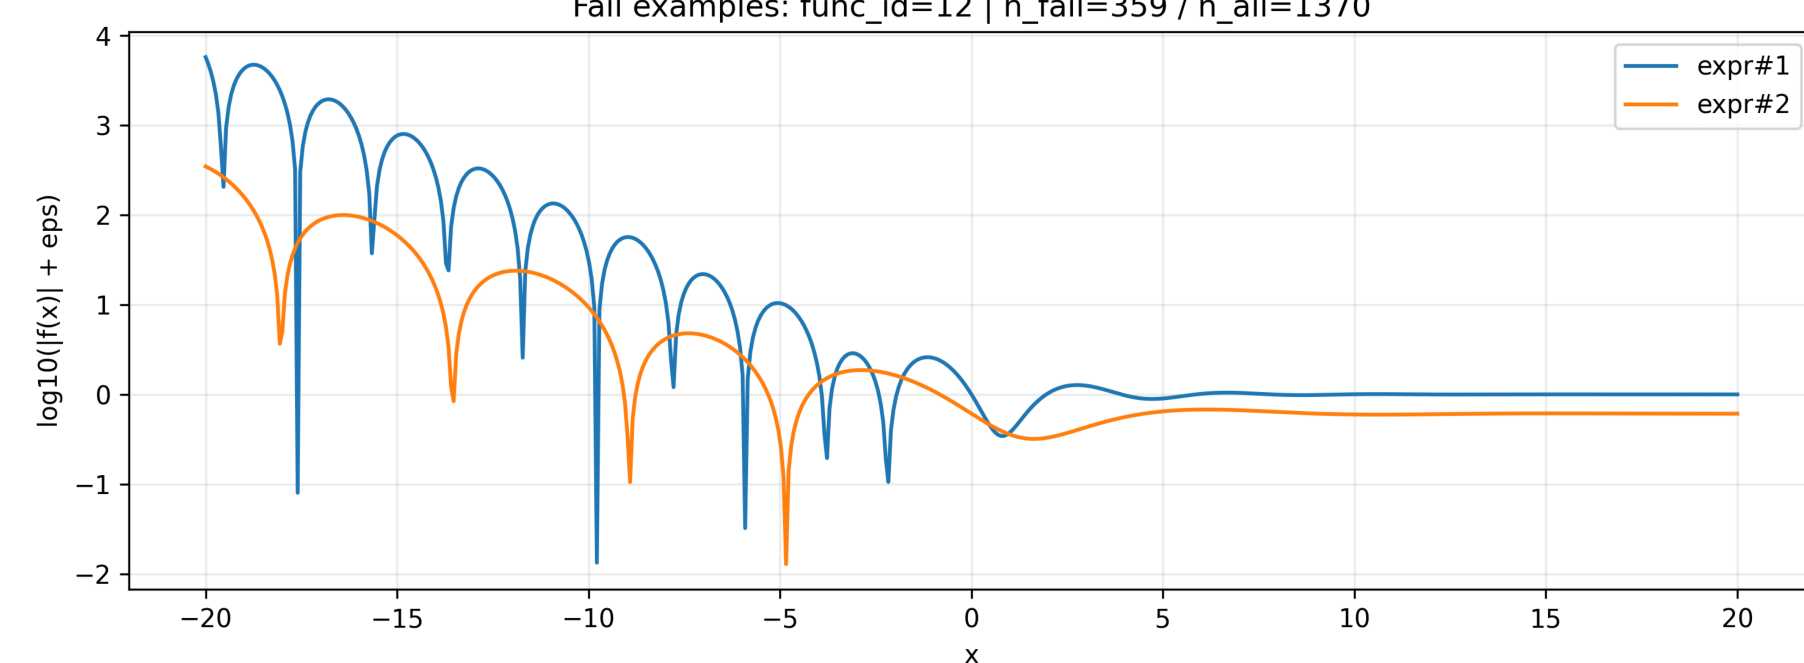

Damped sine current
oscillation + damping / phase drift

Fail examples: func_id=5 | n_fail=399 / n_all=1367

Damped wave
oscillation + damping / phase drift

Fail examples: func_id=12 | n_fail=359 / n_all=1370

Heat fin
global shape mismatch / curvature loss

Fail examples: func_id=6 | n_fail=201 / n_all=807
